

DEEPTHI M

+91 8310594112 ◇ Bangalore, India

mdeepthi555@gmail.com ◇ linkedin.com/in/deepthi-m ◇ github.com/Deepthi-M555

OBJECTIVE

Engineering student passionate about building **production-oriented full-stack and AI-integrated systems** — including **JWT-secured backend APIs**, **real-time session tracking with Socket.IO**, and **LLM-based classification pipelines** with asynchronous processing using **Redis**, **Celery**, and **Docker**. Seeking **Software Engineering, Full-Stack** roles.

EDUCATION

Bangalore Institute of Technology, Bangalore 2023 - 2027 (Ongoing)
Bachelor of Engineering (B.E.) – Electronics and Communication Engineering **CGPA: 8.6/10**

Sri Chaithanya P.U. College, Bangalore 2021 - 2022
PCMC (KSEAB) **Percentage: 96.2%**

SKILLS

Languages	Java, JavaScript, C
Frontend	React, Vite, HTML, CSS
Backend	Node.js, Express.js, REST APIs
Databases	MongoDB, MySQL, Redis
AI/ML	LLM APIs, LangChain, LangGraph
Systems/Infra	Electron, Socket.IO, JWT, Docker
Tools	Git, GitHub, Postman, Hoppscotch

PROJECTS

FYNIX — AI-Powered Behavioral Focus Companion (Desktop App)

Tech: React, Vite, Electron, Node.js, Express.js, MongoDB, JWT, Socket.IO, Web Speech API

- **Architected the backend** with a **layered service structure**, **JWT authentication**, protected routes, and centralized error handling for a production-oriented Electron application.
- **Engineered real-time session tracking** over **Socket.IO**, including **heartbeat/presence monitoring** and state-based transitions across focus, interruption, and recovery states; integrated a **speech-to-text voice input pipeline** for hands-free interaction.
- **Designed adaptive scheduling and recovery logic** around deterministic **focus-state transitions**, with session state persisted through **MongoDB/Mongoose**.

AI Copilot — Intelligent Learning Assistant (Group Project)

Ongoing

Tech: LangGraph, LangChain, FastAPI, Redis, Celery, Kafka, Docker

- **Contributed backend services and REST APIs** for an AI platform that classifies educational content by topic, difficulty, and estimated study time using LLMs.
- **Built the AI classification pipeline** with **asynchronous, event-driven processing** using Redis, and Celery across **Dockerized services**.

INVOLVEMENT

SoftTechie Club, Bangalore Institute of Technology
Marketing Manager (CORE)

Bangalore, India
Jan 2025 - Jan 2026

- Coordinated outreach and student engagement for technical and student-focused club events.
- Collaborated with cross-functional student teams to plan, promote, and execute club activities.
